

MARINE ENGINE  
Type A with Equipment F

## EQUIPMENT

*Standard Equipment F:* Engine complete and propeller equipment with fixed 3-bladed propeller and reversing gear, silencer, 2 metres exhaust pipe, 1 pipe-bend, blow-lamp, fuel tank with deck bolts and tap, 5 mtrs oil piping, drain cock and strainer, water piping (copper piping), 4 metal bolts for fixing the engine, 1 oil can, 1 eye-bolt and the necessary spanners.

*Spare Parts:* 2 ignition contacts, 1 ignition contact packing, 2 distributors, 3 valve springs, 6 valve balls.

*Standard Equipment V:* Engine complete fitted in accordance with equipment F but with an adjustable 2-bladed propeller and reverse.

Each engine can be supplied to order with a bilge pump and rapid ignition device, whilst engines with equipment F can be fitted with a friction clutch.

## GUARANTEE

We undertake to replace free of charge all parts which become unserviceable through faulty material or manufacture within a period of one (1) year, calculated from the date on which the engine is despatched from the factory. All parts requiring replacement must, however, first be forwarded to our factory freight paid, and will become our property after replacement. The customer must himself undertake or pay for the dismantling and re-assembly of the parts.

Natural wear or damage caused by violence, accident, freezing, careless maintenance, inadequate lubrication and the like is not, of course, included in the guarantee.

The costs for repairs or adjustment executed by another factory without our consent will not be made good.
